

## HOW TO REACH FRIGILIANA

### Route from MALAGA AIRPORT to NERJA :

Exit the airport following the signs to Malaga N340. You will at once join a 3-lane dual carriageway. After 3 km, follow the sign: Motril N340. Exit here to the right to join the motorway which skirts all around Malaga (which you see on your right) in a large loop. Ignore ALL signs to Malaga from now onwards, as well as signs to Antequera and other places. Always keep following the signs N340, Motril, Almeria or Nerja. If for some reason you find yourself mistakenly going to Malaga, do not despair but stick to the coastline past the harbour and docks all along the seafront in a straight line and keep going in what is marked as Almeria direction and eventually you will rejoin the motorway. The motorway skirts around Malaga and is intended to continue all the way beyond Nerja where it joins the coastal road to Motril, Almeria. You will follow the exit Nerja, Frigiliana. At this point, keep to the left of the two-lane of the roundabout and carry on over the motorway, around the roundabout on the other side and then towards Frigiliana. Please follow the instruction here under part 2 Route from GRANADA, SALOBRENA, ALMUNECAR (N340) to FRIGILIANA;

**If you come from Granada, Salobrena, Almunecar (N340):** follow the motorway signs (E15 N340): Malaga. This new motorway skirts Nerja. You will exit at Nerja, Frigiliana. You will arrive on a roundabout and find the sign for Frigiliana on your right up towards the mountains. Please follow the instruction here under part 2.

### Route from NERJA to FRIGILIANA :

**part 1:** If you come from Malaga : Just as you approach Nerja you will see a grand arch in front of you on the right hand side of the main road, announcing the entrance to the town of Nerja (about 68 km from the airport). Continue on the main road until you come to a roundabout. Enter it and turn left up towards the mountains and Frigiliana which is 300 m (1,000 ft) above sea level. Be careful about the right of way which varies for difference entrance to the roundabout and also for the two subsequent roundabout ! After just over a km on the Frigiliana road you approach the top of the hill. The next roundabout is just beyond but you won't see it until you reach the top. At this point, keep to the left of the two-lane road, otherwise you may miss the entrance to the roundabout and be forced to turn right onto the stretch of the motorway to Nerja-Cueva (which is finished). Carry on over the motorway, around the roundabout on the other side and then towards Frigiliana.

**part 2 :** After 5 km you reach a Y junction; the new village is in front of you to the right. If you continue on the main road (right), you will have to wind your way along the narrow street through the new village. If you take this way, turn left after about 1 km after emerging from the new village. It is better at the Y junction to take the bypass road plunging on the left (follow the sign Santo Cristo) and avoid the new village. After 1km you come to a T-junction: the village parking lot is located just at your right hand : park there.

The rest of the journey is on foot, as the house is situated in the upper, traffic-free, protected part of the old village. Fifty meters up to your right of the parking lot, you see the Guardia civil above near the « Ingenio ». This is the meeting point, where you can wait for Ana the house tenant you have a phone cell near the Guardia civil (see on the map of the village).

From there follow the road up in the old village on the left alongside the "Ingenio".

After about 150 meters, where a round yellow mailbox is placed, a stepped street (Calle El Barrio) leads up to the right. Follow the stepped street for 100 M. the house is on the right hand side (see the map),

The house is located on the corner of the second right hand small street (see the map of the village).Back to menu
